

HPV CANCER PREVENTION · LIVE CE SESSION

A cancer we can actually *prevent*.

How to Counsel Your Patients on HPV Cancer Prevention: Insights on NACI Vaccine Recommendations in Canada

DATE & TIME

Friday, May 8
2:30 – 5:00 PM · 2.5 hr live

COURSE NUMBER

F50FL
ODA ASM 2026

AUDIENCE

Dental teams
Dentists · Hygienists · Assistants

What you'll take into *Monday's operatory*

- 01 **Why dentistry sits at the front line** of HPV-related oropharyngeal cancer prevention.
- 02 **The current NACI schedule** — dosing, intervals, and catch-up guidance through age 45.
- 03 **Five questions patients actually ask** — safety, efficacy, age, cost, and "is it too late?"
- 04 **Scripts for vaccine hesitancy** that work inside a routine recall visit.
- 05 **A one-page chairside reference** for you and your team.

~70%

of oropharyngeal cancers in North America are **HPV-associated** — and rising, particularly in men.
